TECHNICAL INFO:

The grapes, harvested by hand and selected in a vineyard, are carefully transported to the winery in boxes of 18 kg. After a pre-fermentation maceration at low temperature the grapes are pressed, followed by alcoholic fermentation in a stainless steel tank with controlled temperature between 16°C and 18°C. After fermentation, the wine goes through ageing, remaining in batonnage with the fine lees for a minimum period of 4 months.
