TECHNICAL INFO:

Very selective hand-harvest in the early morning so that we have cold grapes for preserving the aromas. Gently destemmed and 48 hour skin contact. Grapes are then pressed and this pure grape juice transferred to tanks, after nature sedimentation. Fermentation in stainless steel with wild yeast to maximize the fruit character. Moved from tank to bottle, by gravity, then fermentation continues in the bottle and wine become naturally sparkling. Making that wine is a funky piece of winemaking.
It is artisanal style of winemaking.
